

**NZ TELEHEALTH**  
FORUM & RESOURCE CENTRE

YOU'RE INVITED TO A TELEHEALTH WEBINAR:

# Telehealth in primary & community settings

**THURSDAY  
25 MARCH,  
7PM-8PM**

**MODERATOR:**  
**Karen Blake**

*Head of Clinical  
Informatics, Health  
Alliance*

Karen Blake will take the lead on an interesting discussion about the adoption of telehealth in nursing, pharmacy and midwifery in primary and community settings.

This webinar aims to share experience of those already familiar with telehealth and provide core information to those with an appetite for it. The webinar will highlight the positive steps, as well as address the remaining challenges including how to decrease risk, the importance of a trusting relationship between patient and clinician, and ideas for continued improvement.

There will be plenty of opportunity for chat and Q&A during the session and we encourage attendees to prepare questions and share their own experiences.

**PANELLISTS:**

- |                         |  |
