There are calls for the government to adopt a newly proposed, cloud-based, national telehealth programme to help offset the current health workforce crisis, reduce burnout, and eliminate decades-long inequities in patient care. Called PASE 'Patient Anywhere Specialist Everywhere' - the system is a centralised telehealth model of care with a nationwide rostering system for specialist doctors, GPs, nurses and health workers, delivering timely care to patients no matter where they live.

Join us for 'Goodbye Postcode Lottery - Hello PASE' - an insightful webinar where Moderator Joan Simeon, Chief Executive, Te Kaunihera Rata o Aotearoa | Medical Council of New Zealand will lead the panel to actively discuss the benefits, enablers, and barriers of PASE.
