

NZ TELEHEALTH
FORUM & RESOURCE CENTRE

YOU'RE INVITED TO A TELEHEALTH WEBINAR:

Telehealth Apps - innovative inclusion for Aotearoa

THURSDAY 29 SEPTEMBER, 7-8PM

MODERATOR:
Sarndrah Horsfall
*Programme Manager,
Hira Digital Enablement &
Engagement Data and
Digital - Te Whatu Ora -
Health New Zealand*

In December 2020, Te Whatu Ora - Health New Zealand established the Digital Enablement Programme within the Data and Digital Directorate. This programme, also known as the 'Team of 19' supports new and innovative ways people can access health care through digital means, while giving health providers an opportunity to create or further develop innovative digital services and technology.

Join us for Telehealth Apps - innovative inclusion for Aotearoa - an insightful webinar where Moderators, Sarndrah Horsfall and Karen Ellis will introduce Panellists (several of the health providers that have received support from the Digital Enablement Programme) who will present and actively discuss their telehealth apps which include: Tuku Iho, Digi Language Support (DLS), and Rapid Rēhita.

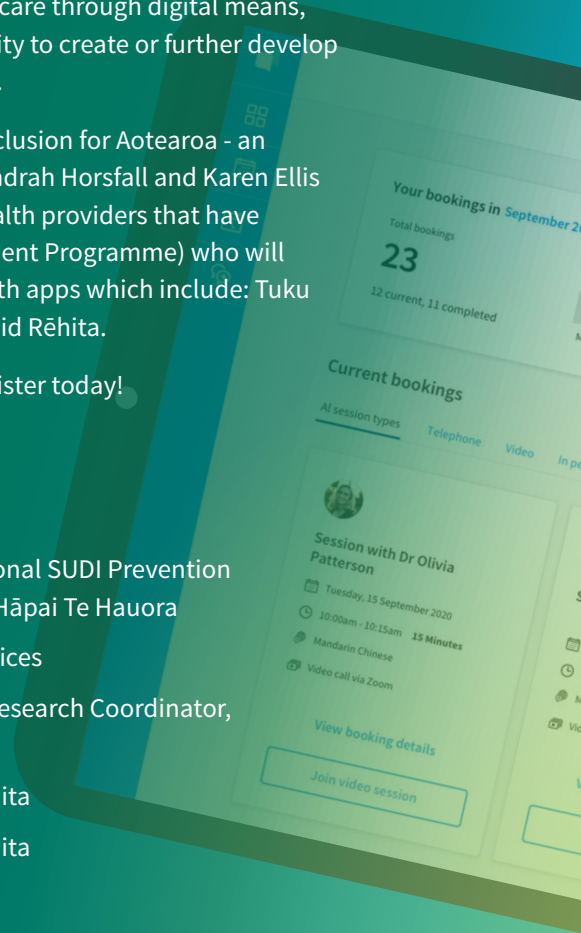

Be part of the online conversation and register today!
