

YOU'RE INVITED TO A
TELEHEALTH WEBINAR:
**Health literacy -
getting the most
from telehealth**

THURSDAY 25TH JUNE, 7PM - 8PM

This webinar will share ideas for getting the best outcomes from telehealth. We will provide techniques to ensure you get the information you need in a telehealth environment, and that consumers get the information and assistance they need from a consult to take appropriate and timely action. These will reflect some of the ways you already work in-person, adapted to work across telehealth platforms, as well as offering some new approaches.
